

TRAIL TESTIMONIAL

Lyon 4 to 8th April 2016

SCHULTZ Clélia

Equipe de Liaison Autisme à Domicile - Apajh38, France

QUESTIONS :

1) What did you learn/gain from this training program? (Did the organizing objectives and outcomes meet your expectations?)

The exchanges with professionals from other countries were very rich. We learned how each country works with autistic people and tools put in place only for understanding autism

2) How was the TC atmosphere and the cooperation - brainstorming among the participants?

The atmosphere was very friendly, and the exchanges were very fluid between professionals

3) Was it your first participation in an Erasmus+ Project Mobility? What are your impressions/ experiences in general? Would you participate again in a similar action?

Yes that was my first participation in an Erasmus project. This experience was very rich, personally and professionally. I think it would be interesting to participate in a new Erasmus experience.

4) Are you going to implement any of the training materials- methodologies at your working environment? If yes, which part(s)?

Erasmus professional projects are very interesting, but not necessarily replicable in our service ELAD.

However it is interesting to know the methods used in other countries, and able to progressively adapted in our country and in our service

CHRISTIAN Diana

Equipe de Liaison Autisme à Domicile - Apajh38, France

QUESTIONS :

1) What did you learn/gain from this training program? (Did the organizing; objectives and outcomes meet your expectations?)

The HYPE project was very rewarding; It allows to know about a basic and complete program for introducing the working with autism.

2) How was the TC atmosphere and the cooperation - brainstorming among the participants?

The atmosphere was very pleasant, and it was easy to exchange our ideas about working with autistic people.

3) Was it your first participation in an Erasmus+ Project Mobility? What are your impressions/ experiences in general? Would you participate again in a similar action?

It was my first participation to an Erasmus Program, I think it's interesting to meet other professionals in autism, and learning about other's experiences.

4) Are you going to implement any of the training materials- methodologies at your working environment? If yes, which part(s)?

Yes for sure. The HYPE project was very interesting as a pattern for training colleagues about autism.

MAIRE Audrey

Equipe de Liaison Autisme à Domicile - Apajh38, France

QUESTIONS :

1) What did you learn/gain from this training program? (Did the organizing; objectives and outcomes meet your expectations?)

During the two first days (training about autism), I didn't learn anything because it was only theory. The three other days were more interesting because they're few brainstorming between people.

2) How was the TC atmosphere and the cooperation - brainstorming among the participants?

There was a pleasant atmosphere during the different brainstorming. Everyone was so curious to know how the others professionals work in their own country.

3) Was it your first participation in an Erasmus+ Project Mobility? What are your impressions/ experiences in general? Would you participate again in a similar action?

Indeed, It was my first participation in an Erasmus program.

It was very interesting to meet people from other countries, because they live close to France but they have different way of thinking about disabilities, psychologist's place in a team etc.

I hope I can participate again in other Erasmus actions because it was a great human experience.

4) Are you going to implement any of the training materials- methodologies at your working environment? If yes, which part(s)?

In this training program in April, we presented our way to work in Elad so it was our methodologies and materials.

COMBEMOREL Amandine

Equipe de Liaison Autisme à Domicile - Apajh38, France

QUESTIONS :

1) What did you learn/gain from this training program? (Did the organizing; objectives and outcomes meet your expectations?)

The time for exchange between professionals were very interesting and they allowed to put forward our common challenges, the actions that have been taken and professionals revolving around this particular people.

2) How was the TC atmosphere and the cooperation - brainstorming among the participants?

the atmosphere was pleasant. participants were open to the exchange.

3) Was it your first participation in an Erasmus+ Project Mobility? What are your impressions/ experiences in general? Would you participate again in a similar action?

It was my first participation in a group Erasmus, i loved this time of sharing between professionals. This week has been rich in experience .I would love to participate in another group because these professionals experienced shares are always an asset for our profession.

4) Are you going to implement any of the training materials- methodologies at your working environment? If yes, which part(s)?

Theoretical training explaining the points that I knew and that I already put into practice. Anglo-Saxon vision gives great perspective in sensibilisation the issue of autism in places nearby (like the bar, the restaurant) and could be transposed to France.
